

Mega-Lock

New Aluminum Glazing System

- Esthetic
- Strong
- Water Proof
- Easy Installation

Mega-Lock Glazing System is specially designed for use in glazing with 6 - 16 polycarbonate multi wall sheets in urban applications such as covered walkways, entrance-ways, parking spaces, bus stations and other similar applications.

Mega-Lock Glazing System has a rabbet depth of 1" which enhances its fastening properties and prevents glazing failures due to wind and snow loads or thermal expansion.

USGR is a leading supplier of structured polycarbonate sheets, acrylic, and polyethylene greenhouse and nursery covering and is known throughout the world for the outstanding quality of its products. We are a worldwide supplier of structured polycarbonate sheets available in corrugated, single sheets, double and multiwall panels in a broad spectrum which are successfully covering a full array of structures worldwide.
